

PROJECT MANAGER

Discern Health is a rapidly growing Baltimore-based consulting firm providing strategic direction and solutions to government and nonprofit agencies, health insurers, and life sciences companies. We focus on quality strategies, performance measurement, and value-based care. Our projects will help you gain knowledge in these areas and give you invaluable client exposure and project leadership experience.

Expect to:

- Join high-functioning project teams
- Participate in project development by interpreting client needs and defining scopes of work
- Produce original content and subject matter in reports, presentations, and other products
- Interact directly with leading government and nonprofit agencies, health insurers, and life sciences companies
- Lead internal and client-facing project meetings and communications
- Strive to provide meaningful outcomes for our clients to ensure satisfaction and retention.
- Manage team productivity and project outcomes
- Learn from all Discern Health staff levels and partners in our team-based environment
- Practice what we preach in terms of our commitment to quality, professionalism, and responsiveness in our client-facing and internal endeavors

Specific Qualifications:

- **Minimum of five years' experience** relevant to health care reform. Ex: health data analysis, performance measurement, health care delivery models, payment reform
- Bachelor's degree from an accredited university—advanced degree preferred in related field (e.g., health policy, health economics, health care administration)
- Certified Project Manager status is preferred
- Ability to manage complex projects and simultaneous work product deliverables and timelines
- Strong and demonstrated report-writing skill
- Strong knowledge of Microsoft Office programs, including Outlook, Word, Excel, and PowerPoint
- Some travel may be required

Please send cover letter and resume to info@discernhealth.com
